

**Comprehensive Fish and Wildlife Rules Enhancement Project  
Timeline for Future Substantive Amendments from Subsection B of the  
Natural Resources Advisory Council's December 22, 2009 report**

<b>Suggested Amendment</b>	<b>Timeline</b>
Consider extending the raccoon and opossum taking season	March NRC Meeting <i>(preliminary adoption)</i>
Consider allowing the hunting of coyotes year-round on all public and private land	May NRC Meeting
Review all deer hunting season and bag limits and consider extensions to address deer herd management, including a review of the earn-a buck program and allowing crossbows during the deer firearms season	May NRC Meeting
Consider limiting depredation permits to the taking of antlerless deer only	May NRC Meeting
Explore moving waterfowl season dates for Indiana's southern zones to later in the year	May NRC Meeting <i>(Note: this is not currently in an administrative rule)</i>
Consider allowing the use of live gizzard shad as bait for striped bass fishing in waters where shad are already present and increase the cast net size for taking gizzard shad	May NRC Meeting <i>(preliminary adoption)</i>
Consider protecting the catfish resource from the taking of large catfish under commercial fishing licenses for sale to pay lakes	July NRC Meeting
